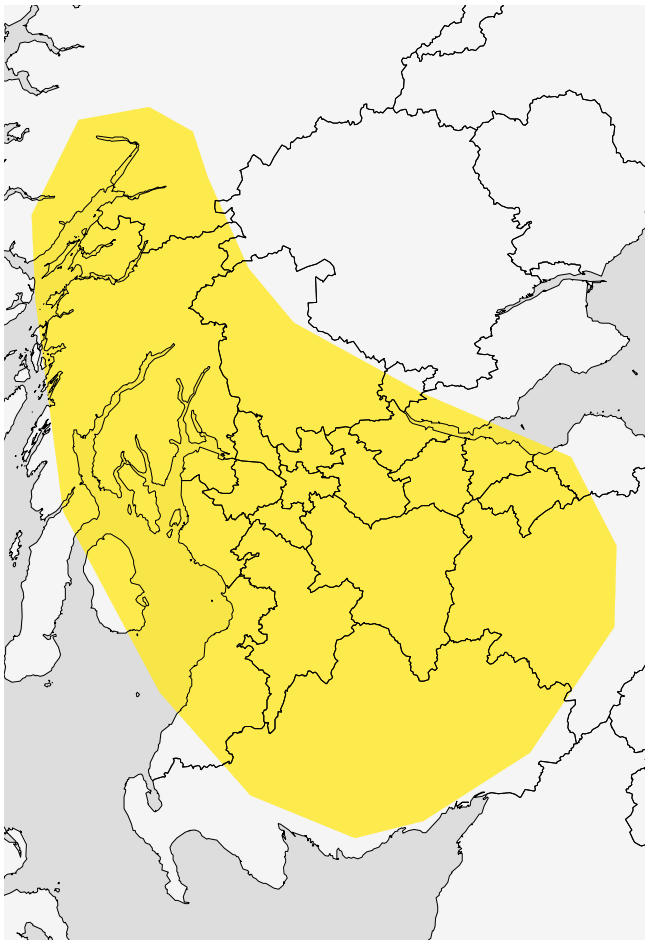
Yellow warning
Thunderstorm

Between
16:00 Fri 19 Jun 2020 and
23:59 Fri 19 Jun 2020



There is a risk of slow moving heavy showers and thunderstorms which may lead to some disruption.

What to expect

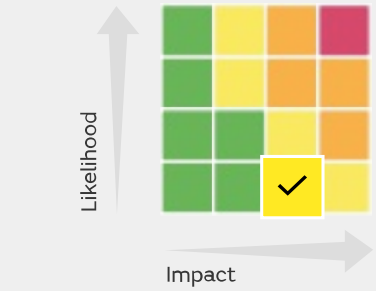
- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Further details

Heavy showers and thunderstorms are expected to develop late this afternoon and through the early evening, moving slowly northwest, before slowly fading overnight.

The most intense rainfall is likely across parts of central Scotland during the early evening, and then across northwest Scotland. Whilst not all areas will see the heaviest rain, some places may see 30 to 40 mm in 1 to 2 hours which may lead to localised flooding.

Lightning and hail are also likely.



Very low likelihood of medium impacts

Issued at 09:32 Fri 19 Jun, 2020
